1958 Fiat Multipla

I bought this car from original owner. Car has been stored under a carport for 45 years. Last registered in 1963. 100% original and 99.9% complete. Has original from the factory correct numbers matching engine. Car is not running or drivable I never tried to get it running. Has rust in usual places for these cars but is very restorable. All glass is good, interior is fair. Clean title in my name so I am the second owner. Also have the original title from 1958.
Asking **\$15,000** Car is located in Michigan.

The Kleinschnittger has landed!

It is no longer on the wall and now resides on the floor in my home in Hamilton, MI. This the Kleinschnittger featured in Issue #4 2012 that I had mounted on the wall for a number of years. I have copies of the original contract between Milton Surkin owner of Surkin Motor Co. for the Kleinschnittger dealership in the U.S. and brochures. To the best of my knowledge, this F125-J has been identified as one of the original ten cars shipped to the U.S. I am asking for **\$10,000** for the car body,

engine, wheels, convertible roof frame, assorted parts and documentation.
I can be contacted at ppdlang@yahoo.com Douglas Langhorst

1959 BMW 600 -sunroof model

We originally bought this off ebay in 2008 and paid \$6001. Have all the receipts and documentation for original purchase and work done. Also included are several parts, bought from Werner and other places, but the car should be complete. Although the engine is apart. The tranny has been restored with that special thingy. It needs posts welded to make the new floor pan stay on. More photos available. Price **\$8K** located in S. Florida Call Lori 305-904-8322 or ernieGT2@att.net

**The Emmett Kelley Crosley sedan**

his 1951 Super sedan (CD 302705) is one of the lowest miles (6952) and unmolested Crosleys left in original condition. Upon his retirement from the circus, Emmett donated the car to his friend at the Tombstone historical museum and it spent many years in safe inside storage! Fully equipped with Crosley Radio, Crosley heater and directional signals, it has new tires and battery and runs well. Minor paint chips and wrinkles in seat fabric are the only visual flaws. The car has the extra chrome

trim and propeller of the Supers. This car should NOT be restored but kept as a "preservation" class vehicle and serve as an example of how Crosleys were built. Not cheap at **\$12,500**, but worth every penny. This Crosley does NOT have the modifications of the "Clown Car" that Emmett invented but is essentially the same as the 1949 he used when he created that circus attraction. More pics available.
